"The ACEA Group has delivered growing results despite the challenging social and economic backdrop caused by the ongoing health emergency. These results reflect the positive contributions from all areas of business, which have proven to be highly reliable and resilient, and our continued focus on operational efficiency," said ACEA's Chief Executive Officer, Giuseppe Gola. "Our performance is the result of a clear sustainable growth strategy, capable of creating value over time for all our stakeholders, above all for our customers, our employees and the communities in which we operate. We remain fully committed to delivering on the growth strategy undertaken in recent years, also thanks to our investment plan, which has been confirmed and further strengthened in the recently approved Business Plan for the period 2020-2024".

ACEA has shown resilience and reliability during the Covid-19 emergency

The ACEA Group took immediate action in response to the Covid-19 emergency, putting in place all the measures necessary to ensure the continuity of the services provided. The company was able to maintain quality and efficiency, whilst at the same time guaranteeing the safety of all personnel through the adoption and implementation of the appropriate preventive measures. Thanks to the Company's already high level of digital readiness, we were able to effectively switch to remote working across all areas of the Group's operations. The readiness of Acea's people, together with the nature of the Group's businesses and its financial strength, ensured a timely and effective response to the crisis, as the following results confirm.

ACEA 9M 2020 CONSOLIDATED RESULTS

Consolidated revenue for 9M 2020 amounts to €2,471.6m, an increase of 5.3% compared with the same period of 2019.

Consolidated EBITDA for the first nine months of 2020 grows to €858.7m, with an increase of approximately €89m or 11.6%. The significant improvement in EBITDA is mainly driven by the positive contributions from our regulated electricity distribution and water businesses. In particular: 1) the Water segment benefitted from the consolidation of Acquedotto del Fiora ("AdF") and changes to tariffs that have offset the elimination of the "commercial quality" bonus; 2) electricity distribution growth was driven by tariff-related and regulatory effects; 3) the Environment segment was negatively impacted by the cancellation of CIP 6 incentives, almost entirely offset by treated volume growth and by consolidation of the newly acquired companies; and 4) the Commercial & Trading segment saw margin growth due to an increase in free market customers.

The **contributions of the individual operating segments** (excluding the Holding Company) **to consolidated EBITDA, of which approximately 83% is generated by regulated businesses, are as follows: Water 52%; Energy Infrastructure 35%** (with electricity distribution accounting for 31%); **Commercial & Trading 6%; Environment 4%; other businesses (Overseas and Engineering & Services) 3%.**

- **WATER** – This segment's EBITDA reaches to €458.6m, an increase of €88m compared with the same period of 2019 (up 23.7%). The growth reflects the tariffs evolution, which have more than compensated the negative impact of elimination of the "commercial quality" bonus (€25.5m in 9M 2019), as well as the change in the scope resulting from the consolidation of AdF from October 2019 (€41.1m) and of Alto Sangro Distribuzione Gas (€0.4m).

The contribution to EBITDA from the water companies accounted for using the equity method totals €20.7m, compared with €26.2m in 9M 2019, with the difference primarily due to the line-by-line consolidation of AdF.

- **ENERGY INFRASTRUCTURE** – This segment's EBITDA is up 5.3% to €305.9m. The result primarily reflects the positive performance of electricity distribution, which generated EBITDA of €271.2m. The improvement compared with 9M 2019 is due to tariff-related and regulatory effects.

As regards generation, the reduction in both volumes and prices following the "Covid-19 emergency" was offset by the contribution from the newly acquired photovoltaic companies (up €7.6m).

OPERATIONAL HIGHLIGHTS (GWh)	9M 2020	9M 2019
Electricity distributed	6,822	7,490
Hydro + thermo + cogeneration	415	450
Photovoltaic production	50	16
Total electricity production	465	466

- **COMMERCIAL & TRADING** – This segment's EBITDA is up 6% to €50m, reflecting growth in customers (up 18.5%) and in the volume of electricity sold on the free market, which has fully offset the negative impact of changes to the mechanism for compensating for delinquent accounts in the enhanced protection market and of the fall in consumption by business customers due to the Covid-19 emergency.

OPERATIONAL HIGHLIGHTS	9M 2020	9M 2019	% change
Electricity sold (GWh)	5,264	4,817	+9.3%
Free market	3,703	3,125	+18.5%
Enhanced protection market	1,561	1,692	-7.7%
Gas sold (million m³)	107	98	+9.2%
NUMBER OF CUSTOMERS ('000s)	9M 2020	9M 2019	% change
Free market	423	357	+18.5%
Enhanced protection market	757	798	-5.1%
Total electricity ('000s)	1,180	1,155	+2.2%
Gas customers ('000s)	206	183	+12.6%

- **ENVIRONMENT** – This segment's EBITDA amounts to €39.5m, broadly in line with the same period of the previous year (€40.6m in 9M 2019). The result reflects the negative impact of the cancellation of the CIP 6 incentives from 31 July 2019 (-€18.7m), compensated by the positive effect of increased disposal tariffs and the first-time consolidation of Demap (up €2.0m), Berg (up €1.5m) and Cavallari/Ferrocarril/Multigreen (up €3.0m).

OPERATIONAL HIGHLIGHTS	9M 2020	9M 2019	% change
Treatment and disposal ('000 tonnes)	1,180	911	+29.5%
WTE electricity sold (GWh)	248	244	+1.6%

- **Other businesses and Corporate** – The contribution to consolidated EBITDA from other businesses (Overseas and Engineering & Services) and from Corporate amounts to €4.7m (€20.4m in 9M 2019). The 9M2019 result benefitted from non-recurring income of €16.2m following the Regional Administrative Court's decision to cancel the fine imposed by Italy's Antitrust Authority.

EBIT is up 5.8% to €426.0m, reflecting an 18.9% increase in depreciation and amortization, primarily attributable to the Water segment (with the consolidation of Adf accounting for €20.2m of the increase).

Net finance costs are up €2.5m, primarily due to the increase in debt following the bond issuance during the period. At 30 September 2020, the ACEA Group's all-in cost of debt is 1.8% compared with 2.2% in the same period of the previous year.

Group net profit of €218.7m is in line with the previous year. Net profit for the first nine months of 2019 included recognition of non-recurring income of €16.2m following the Regional Administrative Court's decision to cancel the fine imposed by Italy's Antitrust Authority.

During the first nine months of 2020, **capex** reached €625.3m, compared to €529.0m of the same period of 2019 (an increase of 18.2%). The investments made, 86% of which are

on regulated assets, are related to the following areas: Water €338.4m, Energy Infrastructure €222.8m, Commercial & Trading €27.0m, Environment €18.2m, other businesses and Corporate €18.9m.

The Group's **net debt** is €3,535.4m at 30 September 2020, increasing by €472.6m from €3,062.8m at the end of 2019. The higher net debt reflects the change in the scope of consolidation and, in part, the €93m increase in working capital absorption resulting from the Covid-19 emergency.

EVENTS AFTER 30 SEPTEMBER 2020

On 27 October, ACEA's Board of Directors approved the Business Plan for the period 2020-2024, which places a strong emphasis on sustainability. The key targets in the Plan are:

- average annual EBITDA growth of approximately 7%, reaching €1.3bn by 2022 and €1.4bn by 2024, with an overall growth by the end of the Plan of 38%;
- capital expenditure of €4.7bn in the period 2020-2024, an increase of approximately €700m compared with the previous Plan;
- a net debt/EBITDA ratio of 3x in 2024 and a net debt/RAB ratio of 0.7x in 2024;
- total dividends of €860m over the period 2020-2024, up compared with the previous Plan and based on a minimum DPS in 2021 of €0.80.

OUTLOOK

GUIDANCE FOR 2020

The Company confirms the guidance previously communicated, which envisages:

- an increase in EBITDA of more than 8% compared with 2019;
- capital expenditure broadly in line with 2019;
- net debt in the range of €3.45bn to €3.55bn.

ACEA confirms its commitment to deploy significant investments in infrastructure which, whilst preserving the Group's strong financial structure, will have a positive impact on the Group's operating and financial performance.

82% of debt at 30 September 2020 is fixed rate, providing protection against any potential interest rate rises and financial or credit market volatility. The average term to maturity of medium/long-term debt at 30 September 2020 is 5.6 years. The average cost of debt has fallen from 2.15% at 31 December 2019 to 1.76% at 30 September 2020.

A conference call will be held at 3.00pm (Italian time) today, 10 November 2020, in order to present the results for the nine months ended 30 September 2020. To coincide with the start of the conference call, back-up material will be made available at www.gruppo.acea.it.

The Executive Responsible for Financial Reporting, Fabio Paris, declares that, pursuant to section two of article 154 bis of the Consolidated Finance Act, the information contained in this release is consistent with the underlying accounting records.

The following schedules are attached:

The consolidated income statement for the nine months ended 30 September 2020, the statement of financial position at 30 September 2020, the statement of changes in equity, the reclassified statement of financial position at 30 September, the analysis of net debt at 30 September 2020 and the statement of cash flows for the nine months ended 30 September 2020.
